

GUIDELINES FOR THE AUTHORS

- Submit original, high-quality technical research not under review elsewhere.
- Submit via the email address provided in the brochure/ poster and website.
- The submitting author is the corresponding author, and this information cannot be altered post-submission.
- Do not submit the same manuscript multiple times; duplicates will be rejected.
- At least one author of accepted papers must register for the conference for inclusion in proceedings.

Manuscript Formatting and Content:

- **Length:** Maximum **4-pages** (A4).
- **Font:** Calibri , English.
- **Plagiarism:** The similarity index must be under 20% (authentication through iThenticate or Turnitin).
- **Content:** Title, author names (initials + surname), affiliation, abstract (max 200 words), keywords (3-5), Results, Discussion and Logical sections (e.g., Introduction, Conclusion) and a References section are required. Acknowledgement is optional after the conclusion. Paper must start with "Introduction" and end with "Conclusion".
- **Figures & Tables:** Numbered, captioned, and placed within text column (preferably at beginning/end of column, close to text).
- **Formulae/Symbols:** Must be clear and presentable.
- **Drawings:** Clear and easy to reference; use hatching instead of coloring.
- **Citations & References:** Cite by author surnames; use "et al." for more than two authors.
- **Adherence to Format:** Strictly adhere to the template and formatting checklist available on the conference website; non-conforming manuscripts will not be processed.
- **Review:** All manuscripts undergo peer review based on quality, originality, technical content, relevance, and theme alignment.
- **Annexures/Appendices:** Clearly mentioned and serially tagged.
